

15th July 2021

Dear Parent or Carer,

We are writing to make you aware of the summer support work put in place by the Core Subject team for your son/daughter following on from their recent mock papers.

As a year group they have unfortunately had many missed opportunities this year and we want to ensure that we put as much support in place for year 11 as possible.

Each class has been set summer work to help close any gaps in knowledge and to ensure they are fully prepared for year 11. This work will be set on Google classroom and is a collection of videos, website links, revision strategies and powerpoints. We hope this will ease students' concerns and help them get ahead of the game for next year.

We would appreciate your support in ensuring your son/daughter makes the best use of these resources over the summer and throughout year 11 to support their learning.

We will also be putting in place individualised interventions from September to focus on exam technique and subject specific content. You will be informed about the timings of these and if your son/daughter is required at the sessions on a half termly basis.

To support students in lessons next year we are requesting that all year 11 students purchase revision guides for their core subjects and that they bring them in each day. This will coincide with the revision strategies they will be learning and using during tutor time. More information on how to purchase revision guides will be released in September.

Kind regards

Mrs Sarah Fortenbacher - Head of Science
Mr Robert Loye - Head of English
Mr James Williams - Head of Maths
